

ASROCK INDUSTRIAL IEP-7041E SERIES

Industrial IoT Controller

- Intel® Core™ Ultra 225H Processor (Arrow Lake-H)
Next-generation power for industrial tasks, data analysis, and real-time control.
- High-Performance Intel® Arc™ Graphics
Superior graphics capability for advanced visualisation and demanding applications.
- Integrated NPU for AI Acceleration
Dedicated engine for artificial intelligence workloads at the edge.
- Robust, Fanless Design
Rugged construction, ideal for 24/7 applications in harsh conditions.
- Extended Thermal Range (-25°C to 50°C)
Reliable operation in extreme industrial environments.
- Wide Range DC Power Supply (9V/19V–36V)
Flexibility for installations with different power sources.
- Advanced Industrial Connectivity
 - 3 × Intel® i226-IT LAN
 - 2 × Intel® i210-AT LAN with PoE support (IEEE 802.3af)
- Isolated I/O for Critical Applications
8 digital inputs and 8 digital outputs with sink/source isolation up to 36V.
- TAA Compliance
Suitable for government projects and regulated environments.
