

CONGA-STDA4 SMARC MODULE

The conga-STDA4 is a SMARC module based on the TI TDA4VM application processor or DRA829J Arm processor, and is designed to operate in the harshest of environments.

Main Features:

- SMARC Module based on TI TDA4VM application processor and DRA829J Arm® networking processor
- Heterogenous architecture with dual Arm® Cortex®-A72, DSP and accelerators for deep learning and multimedia
- Arm® Cortex®-R5F MCUs to offload real-time communication
- Highest reliability for harsh environment applications
- Industrial temperature range -40°C to +85°C
