

NEW FORM FACTOR SOM BASED ON RENESAS ® RZ/V2H PROCESSOR

TIA is a brand-new form factor designed to bring AI at the edge into industrial environments with outstanding efficiency.

With its compact footprint, TIA offers the flexibility to fit into diverse applications, while its architecture is tailored for the seamless integration in industrial cameras—enabling advanced vision-based solutions in automation, robotics, and smart machinery.

Main Features:

- Powerful RENESAS ® RZ/V2H processor with AI accelerator and GPU
- Suitable for autonomous robots, machine vision and advanced graphics applications
